The system is working satisfactorily.

General Remarks:

The system is working satisfactorily in all the districts. No complains have been received either by the District Medical Officers or by this office regarding the distribution of quinine products and its substitutes. The stocks of quinine have been verified by the District Medical Officers and all other Medical Officers nominated by the Surgeon-General on his behalf and found to agree with the book balance.

The distribution of quinine substitutes in the Province is also satisfactory. The District Medical Officers are constantly encouraging the use of quinine substitutes in Medical Institutions and by the general Public. The present system of distribution may continue. There has been no stagnation of quinine substitutes and quinene products in the districts.
